

# Touch-free account access is here.

Register to scan your palm by visiting or scheduling an appointment at any Allegacy Financial Center.

Allegacy is always working hard to offer innovative ways to serve you with secure + convenient digital services. Now, we have added a new way to access your account instead of using your card or photo ID.

#### WHAT IS VERIFAST?

Verifast Palm Vein Authentication is a highly secure biometric technology to scan your palm to access your account. Register once at any of our Financial Centers, then you can scan your palm for card-less account access at our locations and ITMs.

#### HOW DOES IT WORK?

Palm Vein recognition is new technology that scans the vein pattern and is highly reliable for personal identification. Did you know there are more than 5 million reference points in your hand? They are unique to each person, even identical twins have different patterns! To use the system, visit any Allegacy Financial Center to have a Member Service Representative help you record your individual palm vein pattern. Then, you are all set to scan your hand over the sensor devices when inside an Allegacy Financial Center or at an ITM.

#### FORGOT YOUR CARD? NO PROBLEM!

- Scan Your Hand for Account Access
- Secure + Convenient
- Use at Allegacy Financial Centers + Interactive Teller Machines
