A secure way to pay

Rest easy. Apple Pay transactions are authorized with TouchID™ thumbprint security or your passcode, and transactions never use your card number.

It's a snap to get started

1. Make sure your iPhone 6®, iPad Air 2 or iPad mini 3 has the latest version of iOS8.
2. Add your Allegacy Visa® card to Apple Pay... it's easy
3. Use it within apps or hold your device near a contactless reader with your finger on TouchID
